### Technical Notes on Brick Construction

is a series of bulletins that contain design, detailing and construction information based on the latest technical developments in brick masonry. Drawings, photographs, tables and charts illustrate appropriate topics. They are available individually or as a set. Registered purchasers of a complete set will receive notification of new or revised editions via email.

Individual copies are available to view and download free of charge from BIA's website at [www.gobrick.com](http://www.gobrick.com).

To view, download or order *Technical Notes*, go to the BIA website at [www.gobrick.com](http://www.gobrick.com) and select *Technical Notes*.

# Numerical Index

*Technical Notes* are rewritten to include new technical information. The issue date of a current *Technical Note* is shown between brackets [ ]. Current editions supersede earlier editions.

The designation **Reissued** indicates that the edition of the *Technical Notes* shown in brackets [ ] has been thoroughly reviewed and found to be technically accurate. Other editions dated on or after the bracketed [ ] date are still valid; only minor editorial changes have been made. The reissued date appears in parentheses ( ).

Missing numbers have been discontinued.
